PRE-ELECTION TEST AND AUDIT

What, Where, and When

As required by Utah Code 20A-4-104 Before beginning to count ballots using automatic tabulating equipment, the election officer shall test the automatic tabulating equipment to ensure that it will accurately count the votes cast for all offices and all measures. Additionally a firmware validation must be completed, this verifies the firmware versions used on tabulating equipment matches the official certified firmware versions approved for use in the State of Utah.

A test deck is created which contains ballots from each precinct and each contest involved in the election. Votes are marked for each candidate or question. Under votes (blank ballots) and over voter are also included in the test deck. The test deck is processed through each type of tabulation equipment which will be utilized in the election. The results tabulated from the automatic tabulating equipment is then compared to the pre-determined results.

**October 10,
2025**

Testing Team

This test is conducted by personnel of the Davis County Clerks Office. It was publicly noticed and was open to the public, candidates and their representatives for viewing. The test was conducted on October 10, 2025 beginning at 10:00am at 61 South Main Street, Farmington, Utah 84025.

Results

All contests were included in the test, all equipment accurately detected over votes and under votes. The results of the test accurately matched the expected results. The firmware in use was confirmed as the approved version on all tabulating equipment. Following this page you will find the Pre Election Test and Audit Report.

POST ELECTION AUDIT

What, Where, and When

A Post election audit consists of four requirements. First is a comparison of the Cast Vote Record to the Election Summary Report. The second is an audit of the tabulating equipment as required by 20A-4-104(1)(f). This audit ensures the automatic tabulation equipment accurately counted the ballots by hand counting select batches of ballots and comparing the hand counted with the results recorded in the tabulation system. It consists of 1 percent of all ballots up to 1,000 ballots. The ballots are selected randomly by the Lt. Governors Office.

The third is an audit of the signature comparisons made between signatures on envelopes and voter signatures maintained by the election officer as required by 20A-3a-402.5. This audit is performed on 1% of all ballot envelopes prior to envelopes being opened and separated from the ballot.

**November 14,
2025**

The fourth is a final reconciliation of ballots cast to vote history recorded in the voter registration system as required by 20A-4-304 (2)(h). This is documented on the Ballot Reconciliation Report.

Procedures for these audits are set by administrative rules and policy set by the Lt. Governor.

Audit Team

Auditors consisted of Davis County Citizens, and Officials from outside of the Davis County Clerk's Office. It was publicly noticed and was open to the public, candidates and their representatives for viewing. The test was conducted on November 14, 2025 beginning at 10:00am at 61 South Main Street, Farmington, Utah 84025.

Results

The results of the audit accurately matched the tabulated results. No discrepancies were found in the signature comparisons. Following this page you will find the Canvass Audit Certification Report and the Post Election Auditor Certification Report.
