

Dear parents/guardians,

Welcome to the 2022 Children's Oceans of Possibilities Summer Reading program!

We are excited to have in-person programs this year along with some of the programs available virtually. Program calendars with information about each program are available at your favorite library location or on our website.

There will also be bingo sheets which can be completed and turned in for a small prize anytime throughout the summer.

Finally, the library will be awarding free books for children that complete 10 hours of reading over the course of the summer. Check with your local library or the website for reading trackers that can be redeemed beginning July 26, 2022 at any of the Davis County Libraries.

Thank you so much for joining us this year. We hope you have an ocean of fun participating in Summer Reading!
