

# 2018 Student Art Contest

**Sponsored by Davis County Commissioners' Cup Golf Tournament Grant**

## **Featured Festival Bird: Sandhill Crane**

**Who:** All Utah students in grades Pre-K-12 are invited to participate

**What:** An original artwork of an adult **Sandhill Crane** on **8½X11** white paper or artboard

**When:** May 7, 2018 (submissions must be postmarked by this date)

**Where:** Please mail or deliver entries to:

Great Salt Lake Bird Festival  
Attn: Student Art Contest  
P.O. Box 618  
61 South Main St., Room 304  
Farmington, UT 84025

## **Rules and Guidelines**

Utah students in grades Pre-K-12 are invited to create a picture of an adult **Sandhill Crane** in breeding plumage. Make it **LARGE** and **COLORFUL**! Realistic OR stylized images are welcome. The drawing should be submitted on a **flat piece of 8½X11 white paper or canvas**. **Important:** In order to properly hang submissions for viewing at the festival, we need all artwork to meet these sizing requirements. Artwork on paper larger than 8½X11 should be trimmed by the student or teacher before submission to the contest.

Students may use bird field guides, the Internet, or the provided teaching guide to learn about the bird's unique characteristics. The drawing must be the student's original creation and should not be copied or traced from any published source. Only one entry per student is allowed.

Artwork will be judged in five grade categories: Pre-school, K-3, 4-6, 7-9 and 10-12. First, second, and third place awards will be given in each grade category. A Best of Show image will also be chosen by the judges. The prize for first place entries is \$50.00; second place is \$25.00; and third place is \$15.00.

Winning artwork from any category may be featured on the **2019** Great Salt Lake Bird Festival's promotional documents, news releases, and clothing. The students' names will be included with the art. The students will retain all rights to the artwork but give permission to the Great Salt Lake Bird Festival for use of the image for promotional and contest purposes. Selections and decisions by the judges are final. Any entries with unsuitable content will not be considered.

**All entries must be accompanied by a completed entry form.** All submissions must be received or postmarked by May 7, 2018. Submissions will be returned if a return address is provided on the entry form.

**Questions?** Contact Neka Roundy 801-451-3286 [neka@daviscountyutah.gov](mailto:neka@daviscountyutah.gov)

## Teaching Guide: Sandhill Crane

Photos Courtesy of Scott Baxter Info: [https://www.allaboutbirds.org/guide/Sandhill\\_Crane/id](https://www.allaboutbirds.org/guide/Sandhill_Crane/id)

### **Identification**

Sandhill Cranes are tall, slender birds, which are slate gray and often have a rusty wash on the upper body. Adults have a pale cheek and red skin on their crown. Their legs are black. Juveniles are gray and rusty brown, but they don't have pale cheeks or a red crown.

Their large body tapers into a slender neck; the short tail is covered by drooping feathers that form a "bustle". The head is small and the bill is straight and longer than the head.

### **Habitat**

Sandhill Cranes breed and forage in open prairies, grasslands, and wetlands. Outside of the breeding season, they often roost in deeper water ponds or lakes, where they are safe from predators. Northern Utah is at the lower end of their breeding range. They arrive in Utah beginning in March and stay for the summer breeding season.

Favorite Utah viewing locations include Bear River Migratory Bird Refuge, Antelope Island State Park, Farmington Bay Waterfowl Management area, Gillmor Sanctuary, and Cache Valley. The Swaner Preserve and EcoCenter in Park City has a live webcam (and archived footage) of a nesting pair:

<http://www.swanerecocenter.org/preserve-webcam>

### **Food**

Sandhill Cranes forage for grains and invertebrates in prairies, grasslands, and marshes. They do not hunt in open water or hunch their necks the way herons do.

### **Interesting Facts**

Sandhill Cranes form extremely large flocks – into the tens of thousands – on their wintering grounds and during migration. They often migrate very high in the sky. Mates exuberantly and gracefully dance in display to each other.

**2018 Great Salt Lake Bird Festival  
Art Contest Entry Form**

Completed form must be submitted with each entry!  
Artwork will not be returned without a completed, legible form.

Name of artist: \_\_\_\_\_

Teacher (if applicable): \_\_\_\_\_

School (if applicable): \_\_\_\_\_

Address\*: \_\_\_\_\_

City: \_\_\_\_\_ State: Utah ZIP \_\_\_\_\_

Phone: \_\_\_\_\_ **EMAIL** \_\_\_\_\_
