America 250 Celebration

Celebrate the history of this country through games and activities.

Ancient Mythology from Dinosaur Bones

From Cyclops to Mount Olympus and from Chinese Dragons to Thunderbirds! Dig into the possible connection between environmental conditions, fossils, and ancient mythology.

Asteroid Assassin

Learn about the asteroid that made the dinosaurs go extinct!

Basque Dancing

A program featuring Basque dance, music and culture. Learn a few moves to show your friends.

Block Party

Make the digital universe come to life! Dig up a good time with trivia, crafts, stacking blocks, a scavenger hunt and more - bring your creativity and sense of adventure!

Books & Body Slams

Yes they're real wrestlers. Yes they're coming to the library. Enjoy a wrestling show, and maybe learn a lesson or two from our friends at Devotion Championship Wrestling.

Castles & Catapults

Make your own model castle and catapult, and then try to launch cotton balls into a rival's castle.

Drum Along

Come make some noise with Drum Utah!

Earth Detectives with Clark Planetarium

Join us and Clark Planetarium as we "unearth" minerals and fossils and explore the world of animal tracks.

Fantastic Fossils

Listen to stories from a fossil hunter and see some really cool fossils

Flying High

How do airplanes stay up in the air? Meet a pilot and learn about how airplanes work, ask questions like "How do I become a pilot?" and see an exciting flight demonstration.

Forces of Flight with Hill Aerospace Museum

Learn about some the forces of flight and determine the effect of balanced and unbalanced forces. Paper airplanes contests will follow.

Forging Metal

Learn about the history of metal working and see blacksmiths working in the forge... at your library! Real metal and fire included!

Fun with Farmers

Make some natural jewelry, look at worms, learn about dirt! Sponsored by the Utah Farm Bureau.

Gemstones & Jewels

Mine for jewels and create a beaded suncatcher based on your birthstone.

Hidden Light

What lies beyond the visible spectrum? Explore what we can learn from different light waves.

Irish Dancing

See some amazing performances from our Irish Dancing friends. Learn some moves of your own!

It's Magic

The library will become a magical dig site filled with laughter, and interactive dinosaur-themed magic.

Jump into the Jurassic

Journey with us into the "Age of Dinosaurs" where we will make fossils like the ones that started it all in the Jurassic Park movie, race an obstacle course where the floor is lava, solve dinosaur puzzles, and compare ourselves to the real-life sizes of dinosaurs footprints.

Mad Science

Enjoy a show of experiments hosted by a mad scientist!

Pirates: A STEM Adventure

Come along with a pirate captain on an adventure. During the story and after, join with us for STEM/STEAM related games and crafts with a pirate theme.

Puppet Theater

Our friends at Puppet Players will present a puppet show for the whole family. In June enjoy Jack and the Beanstalk. In July they'll present Paws, Patriots and Powdered Wigs.

Under the Microscope

See the microscopic world and create a bacteria model to take home.

Vikings

Dig into some history! Come visit with some vikings and learn what life was like. Fire and sharp objects may be included.
