

DRUG FREE WORKPLACE TESTING
#350

1.0 POLICY. It is the policy of Davis County to protect the health and safety of employees and the public by providing a work environment where all employees are free from the illegal use or abuse of alcohol, drugs and other substances.

1.1 Davis County recognizes substance abuse in the workplace to be a threat to the safety, health, and job performance of all employees and volunteers. In general, substance abuse in the workplace includes use, possession, manufacturing, distribution, and being under the influence of alcohol, or other drugs, including the inappropriate use/abuse of prescription drugs, over-the-counter drugs, or other substances. Throughout this policy, reference to employee also refers and applies to a prospective employee, a volunteer, and a prospective volunteer. Volunteers serving on boards or committees will not be tested. Volunteers who do not operate vehicles, machinery, or equipment (excluding office equipment) will not be required to submit to a test before being allowed to volunteer. These volunteers shall be required to submit to post-accident testing and reasonable suspicion testing.

1.2 It shall be a condition of employment and continued employment that all employees, volunteers, prospective employees, and prospective volunteers comply with the provisions of this policy whenever working, volunteering or representing the County

1.3 Employees are prohibited from using, purchasing, possessing, manufacturing, or distributing (giving away, or otherwise dispensing) alcohol or drugs in the workplace and are prohibited from reporting to work or being subject to work (ex: on-call, on break) with prohibited drugs or alcohol in their system. Any activity involving an illegal substance will have a direct bearing on an employee's employment status with Davis County. Any conviction in a court of law for illegal drug activity may be cause for dismissal from employment.

1.4 Employees are prohibited from abusing a controlled substance such as prescription, and over-the-counter drugs and medications in the workplace. Prohibited activities, involving legal substances, may include use, possession, distribution, or being impaired as defined herein, that are legally obtainable but have not been obtained legally; and use of a drug or other substance in a manner, or for a purpose other than that for which it was intended or prescribed.

1.5 Use of a prescription drug that has been prescribed by an employee's physician is permissible during work hours, but may require certification by the physician as to the ability of the employee to perform their job in a safe manner. Employees must notify supervisors if use of a properly prescribed drug will affect work performance. No employee will be disciplined for making known the authorized and necessary use of a prescription drug. However, employees

must still perform at acceptable standards and shall not be allowed to work if they are impaired by a prescription drug. Abuse of a prescription drug and unauthorized use without a prescription from a licensed physician are prohibited.

1.6 This policy is intended to conform to the requirements set forth in the Local Governmental Entity Drug-Free Workplace Policies Act, Utah Code Annotated, title 34, Chapter 41, and all other relevant State and Federal statutes including the Americans with Disabilities Act. The provisions of any applicable law, statute, regulation, or ordinance (ex: The Omnibus Transportation and Employee Testing Act of 1991 and the Federal Highway Administration and Department of transportation rules of February 1994) shall prevail in the event of any conflict with the provisions of this policy. When federal requirements are stricter than the requirements of this policy, positions requiring a CDL are subject to federal requirements.

4.6 Employees must notify their immediate supervisor of any illegal or controlled substance criminal conviction for a violation occurring in the workplace no later than five (5) days after such conviction. Failure to notify the immediate supervisor shall be cause for disciplinary action which may include termination.

5.0 RESPONSIBILITIES: The Personnel Director shall implement and administer the policy on alcohol and drug testing. Training shall be provided to Administrative Officers and supervisors which addresses job performance, safety, identifying substance, alcohol and drug abuse problems, and County alcohol and drug policies. The Personnel Director shall coordinate disciplinary actions and rehabilitation efforts.

5.1 Administrative Officers should take actions when circumstances indicate a reasonable suspicion that an employee is impaired; inform supervisors of their responsibilities in operating under this policy; focus concerns on job performance, safety, identifying alcohol and drug problems; prohibit an impaired employee from working or driving; provide a means of transportation for an impaired employee to their home or a medical facility; and inform all employees of the provisions of this policy and their responsibilities.

5.2 Employees shall not use alcohol, drugs, or other substances which affect safety or job performance. Employees shall refrain from the possession of illegal drugs or alcohol in vehicles,

equipment, buildings, or at County sponsored events such as training. Employees shall not use or consume alcohol, illegal or unauthorized drugs while in an on-call status or on break. 6.0 TESTING. Testing will occur during or immediately before or after work time of employees and volunteers. Testing time will be deemed work time and employees shall be compensated. All test arrangements will be made by the Personnel Director. All test results will be reported to the Personnel Director who will notify the person tested and Administrative Officers of test results. Urine testing shall be the usual test for drugs and controlled substances. If a urine test is not possible, equivalent Significant Measurable Quantities of the substitute test will be used.

6.1 PRE-EMPLOYMENT TESTING. Davis County requires a test of all final pre-employment applicants to detect the presence of drugs and controlled substances in the body. The Personnel Director may waive this testing requirement for temporary positions lasting fewer than sixty (60) work days per year. Testing shall be done after an offer of employment is communicated. Offers are conditional upon the applicant reporting as directed for testing and successfully passing the test. Two hours will be the usual time allowed for an applicant to report for a pre-employment test. Any applicant who tests positive, tampers with a test, or adulterates a sample will be denied employment with Davis County. Disability laws will be considered for qualified applicants. Administrative Officers shall inform applicants that offers of employment are subject to test results. Administrative Officers shall notify the Personnel Director of the final or top applicant for the position. If a drug screen is positive for a legal and prescribed controlled substance, the applicant or prospective volunteer must provide within 24 hours of request, bona fide verification of a valid current prescription in the individual's name. If the prescription is not in the individual's name or the applicant/prospective volunteer doesn't provide acceptable verification, or if the drug is one that is likely to impair the ability to perform job duties, the applicant will not be hired or the volunteer will not be accepted.

6.2 TESTING IN-HOUSE APPLICANTS. Employees applying for a position in another County department shall submit to a test if they are selected for the position. Employees transferred due to reduction-in-force or for other administrative reasons not related to poor performance shall not be tested.

6.3 REASONABLE SUSPICION TESTING. Employees may be required to undergo testing if there is a reasonable suspicion that the employee is under the influence of alcohol or

drugs while on County premises or while engaged in County business. A supervisor may upon “reasonable suspicion” and after notifying and consulting with the Administrative Officer, ask any employee on-duty or acting in their employment capacity to submit to a test for the presence of alcohol or drugs.

- A. The employee's Administrative Officer shall immediately advise the Personnel Director or a Deputy County Attorney in the Civil Division of the determination of “reasonable suspicion”.
- B. The employee will be taken by the supervisor or another management employee to a location listed in appendix A for testing.
- C. The employee will be immediately removed from duty and assisted in getting home after the test.
- D. The employee will be placed on sick leave, vacation leave, or compensatory time until the test results are available and a preliminary administrative review has been conducted. If the test results are negative, sick, vacation, and compensatory time will be restored.
- E. A “Reasonable Suspicion” test which includes testing for alcohol and drugs will be conducted.

6.4 POST-ACCIDENT TESTING. A work-related accident may be considered as the basis for drug testing. Testing is required for all employees involved in accidents with property damage reasonably appearing to be in excess of \$1,000; physical injury resulting in restricted or lost work time; or when a vehicle (county or private) is towed; or when an employee receives a citation. Davis County may require testing after any accident when there is reasonable suspicion.

- A. The employee's Administrative Officer shall immediately advise the Personnel Director of the work-related accident.
- B. The employee will be taken by the supervisor or another management employee to a location listed in appendix A for testing. Testing must occur within two hours.
- C. The employee will be immediately removed from duty and assisted in getting home after the test.
- D. The employee may be placed on sick or vacation leave until the test results are available and a preliminary administrative review has been conducted. If the test results are negative, sick and vacation will be restored.
- E. A “post-accident” test which includes testing for alcohol and drugs will be conducted.

F. Employees shall not use alcohol for eight hours after being involved in an accident.

6.5 RANDOM TESTING. Employees working in jobs deemed to be “safety sensitive” shall be tested on a random basis. Random selections shall be determined and conducted by a drug testing computer program or vendor selected by the County.

A. The County will determine the number of random tests to be conducted. The Personnel Director shall notify Administrative Officers and make necessary arrangements.

B. Employees selected at random for testing shall be given notice that they will be tested and that testing will occur within two hours. The Administrative Officer shall cause the employee to report to the testing location.

C. A minimum of 50% of the average number of CDL employees will be randomly tested for Controlled Substances use throughout the year.

D. A minimum of 10% of the average number of CDL employees will be randomly tested for alcohol use throughout the year.

7.0 APPLICANT AND VOLUNTEER REFUSAL TO TEST. An applicant's refusal to release test results or submit to a test shall be considered to be the same as a positive test result and disqualify the applicant from further consideration for a period of two years.

8.0 EMPLOYEE REFUSAL TO TEST. An employee's refusal to release test results or submit to a test shall be considered to be the same as a positive test result and the employee will be terminated and not be eligible for rehire.

9.0 CONFIRMATION OF TEST RESULTS. An applicant or employee whose drug test yields a positive preliminary result shall be given a second test using a gas chromatography/mass spectrometry (GC/MS) test. The second test shall use a portion of the same test sample obtained from the employee or applicant for use in the first test.

9.1 If the second test confirms the positive test result, the applicant or employee shall be notified of the results in writing by the Personnel Director. The letter of notification shall identify the particular substance found based upon established cut-off limits.

9.2 An applicant or employee with a confirmed positive test may, at his/her own expense, have a retest conducted on the same sample at a laboratory selected by the County. The cost of this second confirmation test must be paid in advance by the applicant or employee. If the test is negative, the County shall reimburse the applicant or employee for the cost of the test.

Requests for a second confirmation test must be made within 24 hours of notification of the positive test results. Results of these tests will be released to the Personnel Director by the laboratory.

10.0 CONSEQUENCES OF A CONFIRMED POSITIVE TEST RESULT. Outside applicants shall be denied employment with Davis County for confirmed positive test results. Outside applicants shall not be eligible for employment for two years after receiving a positive test result. In-house applicants shall be denied employment in the position for which application was made.

10.1 If an employee's positive test result has been confirmed, the employee is subject to disciplinary action which may include termination in accordance with the Davis County Merit System Ordinance. The employee may also be required to complete an Employee Assistance Program treatment plan which may include counseling and prescribed treatment. The employee shall also be subject to further testing for a period of one year. The Administrative Officer shall determine when these tests shall be given. Factors which may be considered in determining the appropriate disciplinary response include the employee's work history, length of employment, current job performance, and the existence of past disciplinary actions. Failure to satisfactorily meet these requirements will result in termination. Law Enforcement Deputies and Corrections Officers will be dismissed immediately if a test result is positive for illegal drugs.

10.2 No disciplinary action should be taken against employees who voluntarily identify themselves as drug or alcohol users or abusers, prior to the time it is apparent their use has been detected and who obtain counseling and rehabilitation through the County's Employee Assistance Plan. However, this provision shall not restrict the County from taking disciplinary action arising from other violations of County conduct rules and standards, or making job reassignments to reduce the risks of accident or injury that may result from the use of alcohol or drugs.

11.0 EMPLOYEE ASSISTANCE PROGRAM. Davis County believes that it is in the best interest of the County and the public to assist employees who are less than fully productive on the job as a result of personal, financial, substance abuse, or related problems. Davis County has an established Employee Assistance Program that an employee with substance abuse problems may be referred to. If any employee refuses to participate, disciplinary actions including termination may be initiated. Disciplinary action based on a violation of this policy is not automatically suspended by an employee's participation in the assistance plan and may be imposed when warranted.

12.0 CONFIDENTIALITY. All information from an applicant's or employee's test is confidential and classified as protected under the County's Records Access Management Act. Disclosure of test results will be made to appropriate County officials. Disclosure of test results to any other person, agency, or organization is prohibited unless written authorization is obtained

from the applicant or employee or upon court order. Test results will be filed in the Personnel Office apart from the individual's personnel file.

13.0 LABORATORY TESTING REQUIREMENTS. All alcohol and drug testing of applicants and employees shall be conducted at medical facilities or laboratories selected by Davis County and certified by The Substance Abuse and Mental Health Services Administration or the American College of Pathology. Split sample testing shall be conducted.

13.1 Significant Measurable Quantity (SMQ) means the impermissible quantity of a drug, including alcohol, that indicates a positive drug and/or alcohol test in violation of Davis County’s written policy. The SMQ for drugs is established by the Federal Department of Health and Human Services and is subject to change. 14.0 EXPENSES. Davis County will pay the expenses of the initial test and one confirmation test. The expenses for any treatment or rehabilitation shall be the responsibility of the employee.

15.0 RIGHTS OF COUNTY. The terms of this policy do not, explicitly or impliedly, constitute any form of employment contract between an individual and Davis County. Any inconsistency between the provisions of this policy and other Davis County policies shall be resolved by applying the provisions contained herein. All forms and appendices referred to in this policy are a part of this policy and are incorporated by reference.

16.0 EMPLOYEE NOT DISABLED. An employee, volunteer, prospective employee, or prospective volunteer whose drug test results are verified or confirmed as positive shall not, by virtue of those results alone, be considered as disabled for purposes of Title 34A, Chapter 5, of the Utah Anti-Discrimination Act, or the Americans with Disabilities Act.
