Description: Davis Canyon is east of about 900 South. The trail starts as a wooded path that then traverses the mountainside and heads over the mountain to a beautiful alpine forest with waterfalls, wild raspberries, and a soft walk through heavy pine needles. Several camp spots are along the way. The trail goes to the top of the mountain where Skyline Drive can be found, however, this part of the trail needs improvement before a person not having hiked the trail before will be able to find the way.
