

Respiratory Illness Report - Week ending October 14, 2023

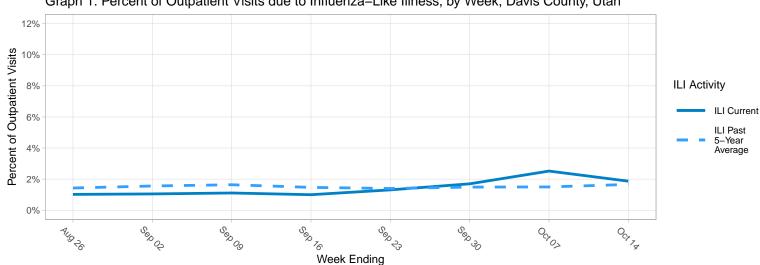

Published October 20, 2023

Overview

COVID-19 Wastewater Surveillance: As of October 12, overall statewide levels of viral concentrations in wastewater remain high. In Davis County, two sewer districts are in the Elevated Category: Central Davis (Farmington/Kaysville area) and South Davis – South (North Salt Lake area). The remaining two sites (North Davis and South Davis – North) are in the Watch category. No sites are in the Low category.

Influenza-Like Illness

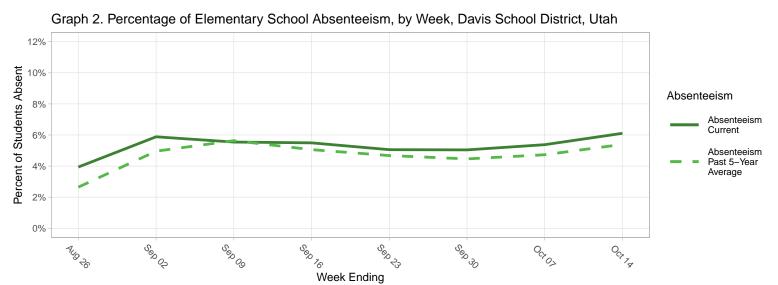

Graph 1 displays the weekly percentage of outpatient visits due to influenza-like illness (ILI). For comparison, the dashed line shows the previous 5-year average (2018-2022) of ILI activity. This week's ILI rate was 1.9%.

Graph 1. Percent of Outpatient Visits due to Influenza-Like Illness, by Week, Davis County, Utah

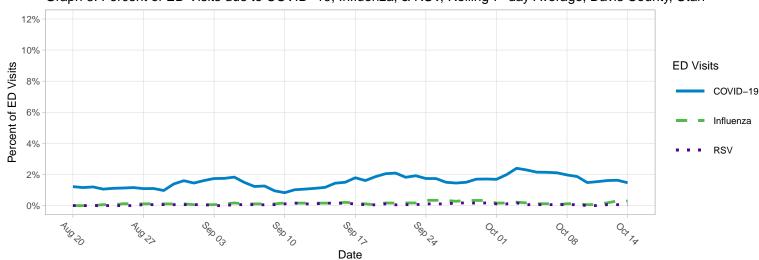

School Absenteeism

Graph 2 displays the weekly percentage of elementary school absenteeism in Davis School District. For comparison, the dashed line shows the absenteeism rate of the previous 5 school years (school years beginning 2018-2022). This week's absenteeism rate was 6.1%.

Emergency Department Visits

Graph 3 displays the rolling 7 day average of the percent of emergency department (ED) visits due to COVID-19, influenza, and respiratory syncytial virus (RSV). These data are obtained from syndromic surveillance and only consider the diagnosis discharge codes for each condition. Table 1 presents two data points for each virus: the current trend of ED visits (increasing, decreasing, or no change), and the percent of ED visits due to each during the currently reported week.

Graph 3. Percent of ED Visits due to COVID-19, Influenza, & RSV, Rolling 7-day Average, Davis County, Utah

Table 1: Recent Trends of ED Visits, Davis County, Utah, for Week Ending Oct 14, 2023

${f Virus}$	Trend	Percent of ED Visits
COVID-19	Decreasing (last 14 days)	1.5 %
Influenza	Plateau/no trend (last 14 days)	0.3 %
RSV	Decreasing (last 14 days)	0.1 %

Hospitalizations

Graph 4 displays the weekly number of hospitalizations due to COVID-19 and influenza.
