

**UTAH DEPARTMENT OF HEALTH INFECTIOUS DISEASE UPDATES**  
**DIVISION OF DISEASE CONTROL AND PREVENTION – BUREAU OF EPIDEMIOLOGY**

**INFECTIOUS DISEASE LISTSERV IS A WEEKLY EMAIL SERVICE.**

The Utah Infectious Disease Listserv provides healthcare professionals with Utah's current infectious disease information. This information is sent straight to your email address, and is targeted to physicians, clinicians, nurses, laboratory workers, and public health personnel.

Special points of interest include:

- What diseases are circulating in Utah
- Statewide disease trends
- Disease facts and figures
- Testing procedures
- Clinician guidance
- Patient recommendations
- Health advisories

**SUBSCRIBING TO THE INFECTIOUS DISEASE LISTSERV IS EASY!**

Healthcare professionals wishing to subscribe to this listserv can send an email request to [epi@utah.gov](mailto:epi@utah.gov) and include “subscribe hl-microbiology” in the subject line. There is no cost to participate. You are welcome to forward listserv messages to co-workers and others included in the target audience for professional use only. For more information, contact the Bureau of Epidemiology at 801-538-6191.
